

Dear incoming 8th grade students:

Please order the paperback book:

The Mystery of the Periodic Table by Benjamin D. Wiker

(www.bethlehembooks.com or www.amazon.com).

STUDENTS WILL NEED IT FOR THE FIRST DAY OF SCHOOL. The first assignment of the new school year will be out of this book. There are limited copies in the school library but I recommend that you purchase the book. We will use the book several times this coming year. You do not have to read during the summer but we will hit the ground "running".

Have a good summer.

Mrs. McGuire
