- **Brief summary of interest in position (limit to one paragraph):**
As an Incarnation parent, of a Kindergarten student, it is important to create a positive environment for parents, teachers, administration, and most importantly our children. Our teachers and administrators provide an environment which guides our children to have a strong sense of community and an academic culture where they learn to become confident students. I feel we need to continue building relationships between school staff and parents which will allow our teachers to continue providing such a

positive environment. I would be honored to continue working with the HSA, parents, teachers, and school administration to positively support the Incarnation community. Thank you for your consideration.
