Rising Third Grade Math Summer Work

Welcome to third grade! The assigned IXL math skills in the chart below are required practice. These are all skills that have been taught in 2nd grade and are meant to serve as a review and keep students' minds engaged in math concepts over the summer break. Students will log on to their IXL account and complete the following Second Grade skills.

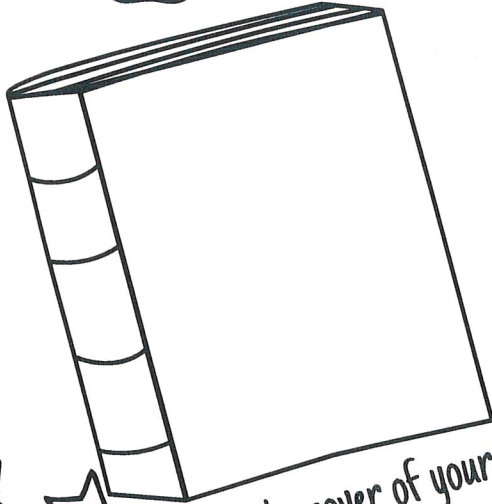

<https://www.ixl.com/signin/incarnation>

Students should practice the following skills and work to attain a SMART SCORE of 80 or above on each skill. If you have been working for more than 15 minutes and have not achieved this goal please stop and write your smart score at that time. Please note, IXL sometimes changes the IXL skill numbers over the summer. Please just use the title as a guide. The most valuable part of the practice work is to read the program's explanation of "why" an answer is incorrect and how to correct it.

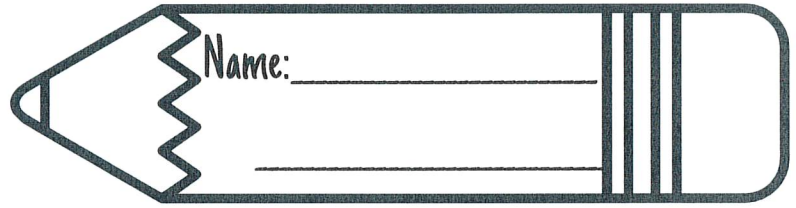

Please complete the chart and bring it to school by September 5, 2025.
